

**"LUFTWAFFE OVER MANCHESTER" by Peter J C SMITH**  
**Surname index in true alphabetical order for all WW2 casualties (injured & deceased) listed**  
**in Appendices 13-15 Compiled by Julie Davey**

I have also included those names which appear in the main text together with their page number. There may be more than one entry per surname on the page listed, so please check.

NB - Names are grouped by hospital location etc in the appendices, therefore confusing. Also, some suspect name spellings in the appendices, so check for alternatives in the index.
